Professional Summary

Skilled Android Developer with expertise in Kotlin, Jetpack Compose, and modern app architecture. Experienced in DevOps tools like Docker, Kubernetes, AWS, and CI/CD. aims to Deliver clean, scalable apps with a focus on performance and reliability

Education

Sinhgad Institute of technology and science, Lonavala (8.45 cgpa)
B.E in Computer Science

Lonavala, MH
June. 2023 - May. 2027

Work Experience

Prodigy Infotech
Android Development Intern

Remote
April 2025-May 2025

- worked on building and optimizing mobile applications using Kotlin and Jetpack Compose.
- implemented user interfaces, integrated APIs using Retrofit, and managed local data persistence with Room.
- followed the MVVM architecture and collaborated with the backend team to ensure seamless app functionality.
- contributed to debugging, testing, and improving app performance, while gaining hands-on experience with Git, Firebase, and modern Android development tools.

Projects

Taskly - Android App
a minimal and intuitive to do list app

Jetpack Compose, Kotlin
[Download](#) | [Github](#)

- Add, edit, and complete tasks with real-time state management
- Integrated dark/light mode with Material You design principles
- MVVM architecture using Kotlin and Jetpack Compose

Breezy — Weather App (Android)
A clean weather app with a breeze of creativity

Jetpack Compose, Kotlin
[Download](#) | [Github](#)

- Displays real-time weather data via OpenWeatherMap API
- Smooth UI animations and modern design language
- Tech: Kotlin, Jetpack Compose, Retrofit, MVVM, Coroutines

Pokeverse — Pokédex App (Android)
Interactive Pokédex app with clean ui and ux

Jetpack Compose, Kotlin
[Download](#) | [Github](#)

- Fetches and displays paginated data from PokéAPI
- Search, filtering, and lazy loading for a smooth UX
- Tech: Kotlin, Jetpack Compose, Retrofit, Coil, MVVM, Koin

Technical Skills

Strongest Areas	Android App Development, Clean Architecture (MVVM), UI/UX, Data Structure, Algorithms
Programming Languages	Kotlin, Java, Python, C++, JavaScript
Libraries/Frameworks	Jetpack Compose, Room, Hilt, Retrofit, WorkManager, Koin
Database Platforms	Room (SQLite), Firebase Firestore, PostgreSQL, MongoDB
DevOps & Tools	Linux basics, Shell scripting, Docker, Kubernetes, AWS(basics), Firebase
