Work Experience

Prodigy Infotech   Remote
Android Development Intern   April 2025-May 2025

- worked on building and optimizing mobile applications using Kotlin and Jetpack Compose.
- implemented user interfaces, integrated APIs using Retrofit, and managed local data persistence with Room.
- followed the MVVM architecture and collaborated with the backend team to ensure seamless app functionality.
- contributed to debugging, testing, and improving app performance, while gaining hands-on experience with Git, Firebase, and modern Android development tools.

ShadowFox   Remote
Android Development Intern   May 2025-June 2025

- Built intuitive Android UIs with Jetpack Compose
- implemented API integrations using Retrofit, and maintained clean architecture with MVVM.
- Contributed to code reviews, bug fixes, and app performance enhancements.
- worked on some ambitious projects

Projects

                                                                                                  Jetpack Compose, Kotlin
Taskly   Github
a minimal and intuitive to do list app

- **Supports adding, editing, deleting, and persisting tasks using Room and ViewModel.**
- **Designed with clean architecture and responsive UI for a smooth user experience.**
- **smooth and subtle animations**

                                                                                                  Jetpack Compose, Kotlin
TicTacToe   Github
A classic 2-player game

- built in Kotlin with Jetpack Compose.
- Features real-time game logic, win/draw detection, and a clean UI.
- Emphasizes state management and interaction handling in a Compose-based UI

TechnicalSkills

Strongest Areas	Android App Development, Clean Architecture (MVVM), UI/UX, Data Structure, Algorithms
Programming Languages	Kotlin, Java, Python, C++, JavaScript, Bash
Libraries/Frameworks	Jetpack Compose, Room, Hilt, Retrofit, WorkManager, Flutter (basics)
Database Platforms	Room (SQLite), Firebase Firestore, PostgreSQL, MongoDB (basics)
DevOps & Tools	Linux basics, Shell scripting, Docker, Kubernetes, AWS(basics), Firebase

Education

Sinhgad Institute of technology and science, Lonavala   Lonavala, MH
B.E in Computer Science   June. 2023 - May. 2027

- overall cgpa: 8.45 (upto fourth semester)
